Individual Income Estimated Tax Payment Vouchers

This booklet contains payment vouchers, instructions, worksheet and 2007 preliminary VT tax rates for calculating your VT estimated income tax payments for the 2007 tax year, and a record of payment.

To pay by credit card, go to <u>www.state.vt.us/tax</u> to use our on-line payment system. No voucher to make out, no mailing, and *VTPay* keeps a payment record for you.

To mail your payment, print your name, address, and social security number on the voucher. If the payment is for a jointly filed return, be sure that the names and social security numbers of both spouses or civil union partners are included on the voucher. The mailing address is printed on the back of each voucher and fits in a standard window envelope. Remember to use the record of payment section of the booklet to show when each estimated payment was made.

QUESTIONS? Contact your tax preparer for advice on filing estimated payments. Contact the Vermont Department of Taxes for other assistance.

INSTRUCTIONS

Who Must File Estimated Income Tax Payments? Every individual who expects to incur an income tax liability greater than the combined withholding and other tax credits, or to pay on income not subject to withholding such as self-employment earnings. Farmers and fishermen as defined by the Internal Revenue Service are not required to make estimated income tax payments.

How Should I Estimate My Tax Liability? Use the worksheet included with the vouchers to estimate your 2007 tax liability. If you expect your tax to be more than your withholding, you must pay the difference to the Department of Taxes in quarterly installments. You may apply your 2006 income tax refund toward your 2007 estimated tax liability. Remember to enter that amount on your Record of Payments to determine the next payment amount and due date.

Example: On April 1, 2007, you estimate 2007 VT tax liability at \$600. You should make an estimated payment of \$150 on April 15, 2007. On June 1, 2007 you change jobs and anticipate the 2007 tax liability will now be \$800. On June 15, you should make an estimated payment of \$250 to bring total payments up to 50% of the revised tax. On September 15 and January 15, you should make estimated payments of \$200 each.

When Do I File and Make Payments? Estimated tax payments are due on April 15, June 15, September 15 of 2007 and January 15, 2008. When the

15th falls on a weekend or holiday, the payment is due on the next business day

Fiscal year taxpayers - contact the Department for instructions.

Entries - Round payments to the nearest whole dollar. Use blue or black ink to write entries.

What If My Estimated Tax Payments Are Less Than Tax Minus Withholding and Credits? Underpaid estimated tax results in penalty and interest charges. To avoid these charges, estimated payments must equal (1) 100% of last year's tax liability; or (2) 90% of this year's tax liability; or (3) the tax due at filing, less withholding and credits, is less than \$500.

What If My Estimated Tax Payments Are Late? You will be charged penalty and interest from the due date of the payment to the date paid.

What are Interest and Penalty Charges? Interest is 0.7% per month and penalty is 1% per month, up to a maximum of 25% of the payment amount. The charges accrue on the difference between the amount that should have been paid and the amount paid.

Can I File Annualized Estimates For Vermont? If you file Federal Form 2210, you must also annualize for Vermont. Please send a copy of Form 2210 when you file your Vermont income tax return.

VT taxable income, in most cases, is your Federal taxable income plus income from Non-VT state and local obligations less interest income from U. S. Obligations, and 40% of Adjusted Net Capital Gains.

If you have any of the following additions or subtractions to Federal tax, you will need to adjust your Vermont tax.

See 2006 VT income tax booklet or go to <u>www.state.vt.us/tax</u> for more information on VT taxable income and additions and subtractions from tax.
